### Report: ICT

Most of the departments of the college use ICT as a medium of instruction. This helps in better understanding of the subject and knowledge sharing. Students can access various online resources. They are also encouraged to participate and present papers using ICT.

During COVID pandemic in 2020 teaching learning shifted to online mode. It was quite difficult for students to switch from offline to online thus College took initiative to educate students how to handle the situation by regularly making them aware of the technology, downloading apps like zoom, Google Meet, classroom etc how to upload answer scrips, create links, search the internet, YouTube participate in webinars.
